

AGENDA

SIDDHARTA COLLABORATION MEETING

(JRA10 - *HadronPhysics I3* Project)

LNF, 11-12 May 2006

Starting: 09:30

Directorate meeting hall

- 1) P. Lechner Spectroscopy tests on $3 \times 1 \text{ cm}^2$ SIDDHARTA SDDs
- 2) L. Bombelli, T. Frizzi Development status of the CMOS readout electronics
- 3) J. Zmeskal The SDD test setup-first results
- 4) J. Zmeskal The SIDDHARTA apparatus. Overview and open questions
- 5) T. Ishiwatari Precision measurements with SDD. Experience gained at KEK
- 6) M. Iliescu Progress report on DAQ and tests with the digital board

- 7) F. Sirghi
Resolution improvement on run 1 setup after implementing a new scheme of shielding and power supplies
- 8) M. Catitti, G. Corradi,
M. Bazzi, D. Tagnani
ASIC/DAQ interface
- 9) D. Pietreanu
Slow control system for temperatures and high voltages used in the prototype setup
- 10) V. Lucherini
Advancement status of trigger and platform setup.
- 11) A.O.I.

11th May, 20:30

*Social dinner offered by JRA10-LNF group at Restaurant Cacciani,
Frascati*
